# THE COMPOSITION OF THE HUMAN BODY FROM THE FIVE ELEMENTS

The human body is made up of five elements Air, Water, Sky, Fire, Earth. For a healthy body there should be perfect balance between healthy mind and body, however the imbalance of any one or more elements may lead to a unhealthy body and mind.

## IMPORTANCE OF EARTH ELEMENT IN HUMAN BODY

Of all The planets in the universe, life is only on earth because our earth itself is a magnet, which has both the north pole and the south pole. In the earth's womb (5000 km under/below the ground) there is a hot sea of iron which is boiling at 6000<sup>o</sup>c and the earth is constantly revolving around the sun, which has a speed of 107000 kilometers per hour. because of this, two forces are generated –

Gravitational force

Magnetic force

**Due to the stable impact of these forces blood circulation remains normal in our body**

### **EFFECTS OF LIVING IN VILLAGES AND BIG CITIES ON HUMAN BODY**

People living in villages live healthier and longer lives than those living in cities. Because the construction of village houses is mostly done using raw mud, wood and stones. Iron weakens the earth's magnetic waves. Due to which the human body does not receive enough earth's magnetic waves, and the blood circulation of the body declines. Due to which the amount of oxygen decreases. As a result, our body becomes unhealthy.

*“If somehow it is possible to make proper use of these magnetic waves of the earth or magnetic waves of similar frequency, then the circulation of blood in the human body can be improved, and many diseases caused by its absence will be cured”*

## MYSTERY OF DISEASE (REALITY)

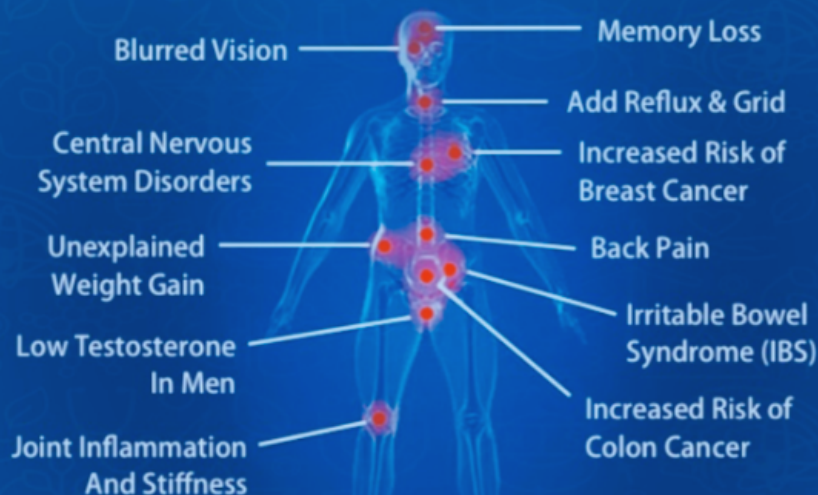

"In today's situation we have polluted everything. Due to which today a large section of the society is suffering from many physical ailments and pains. Many diseases have arisen due to the disturbance of this balance."

## IMPORTANCE OF BLOOD IN HUMAN BODY

1. Transport of oxygen and nutrients to the lungs & tissues.
2. Formation of blood clots to prevent additional blood loss carrying infection-fighting cells and antibodies.
3. Regulating body temperature, The cardiovascular system carries oxygen and nutrients, including blood, all parts of our body.

## TOXIC DEPOSITS IN YOUR BODY & EFFECTS

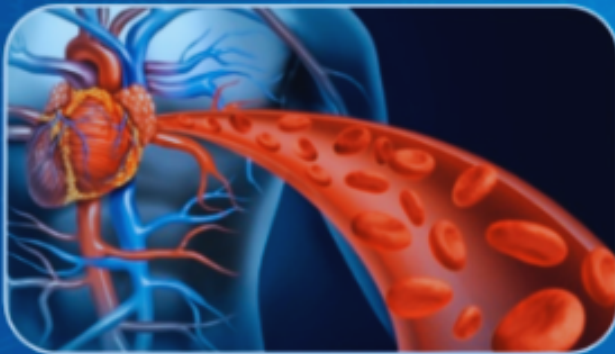

**Removing waste from the body through Kidney.**

## NATURAL BIO MAGNETS

“100% NATURAL AND SCIENTIFICALLY PROVEN WITH  
ZERO SIDE EFFECTS “

Biomagnetic therapy, also known as Biomagnetism or Biomagnetic Pair therapy, is a paradigm shifting, holistic approach to wellness which utilizes medium intensity (upto 5,000 gauss) Neodymium magnets placed in specific locations with the correct north or south polarity. When accurately applied this therapy restores proper pH and homeostasis, encourages the optimal function of organ systems, normalizes response to inflammation, stimulates detoxification, and releases emotional traumas held deep in the body's memory.

Extremely Powerful, Natural (Bio-Magnet) Made from Modern (NASA) Technology Helps in Blood Circulation

### Benefits :

Natural (Medical) grade bio magnets generate strong biological pull and energy force in blood cells and naturally improve blood circulation and oxygen level. Due to poor blood circulation the fats and unwanted compounds deposit in the blood vessels, gradually increases the chances of heart attack Continuous use of Bio Magnetic products makes the blood flow smooth due to which it helps to remove blockages.

# Root Cause of Disease

Today modern medical science has proved that more than 99% of diseases in the human body arise due to only two reasons,

1. Lack of our blood circulation
2. Low level of oxygen in the body.

When all the 78 organs of our body do not get sufficient oxygen. The external bacteria (through virus, air, water, food) enter our body and make our body weak the primary reason is the reduced body immunity due to low oxygen levels in our blood cells.

**"90% of diseases in the human body are due to lack of blood circulation and poor oxygen level."**

# Bio Magnetic Mattress & Pillow Pads

Humans need to spend one-third of their time sleeping. Any qualitative or quantitative disturbances in sleep would quickly result in an increased prevalence of obesity, metabolic disorders, diabetes, cardiovascular diseases, and hypertension. These are various research paper which aims to highlight the growing global problem of insufficient sleep and its significant impact on the rising incidence of diabetes

**“90% of the repair and maintenance of the human body occurs during sleep. Because while sleeping, there is an organ called Pineal Gland inside our brain which generates melatonin hormone. Due to which deep sleep comes”.**

National Center for Biotechnology Information

## How Can You Improve Sleep and Strengthen Your Immune System?

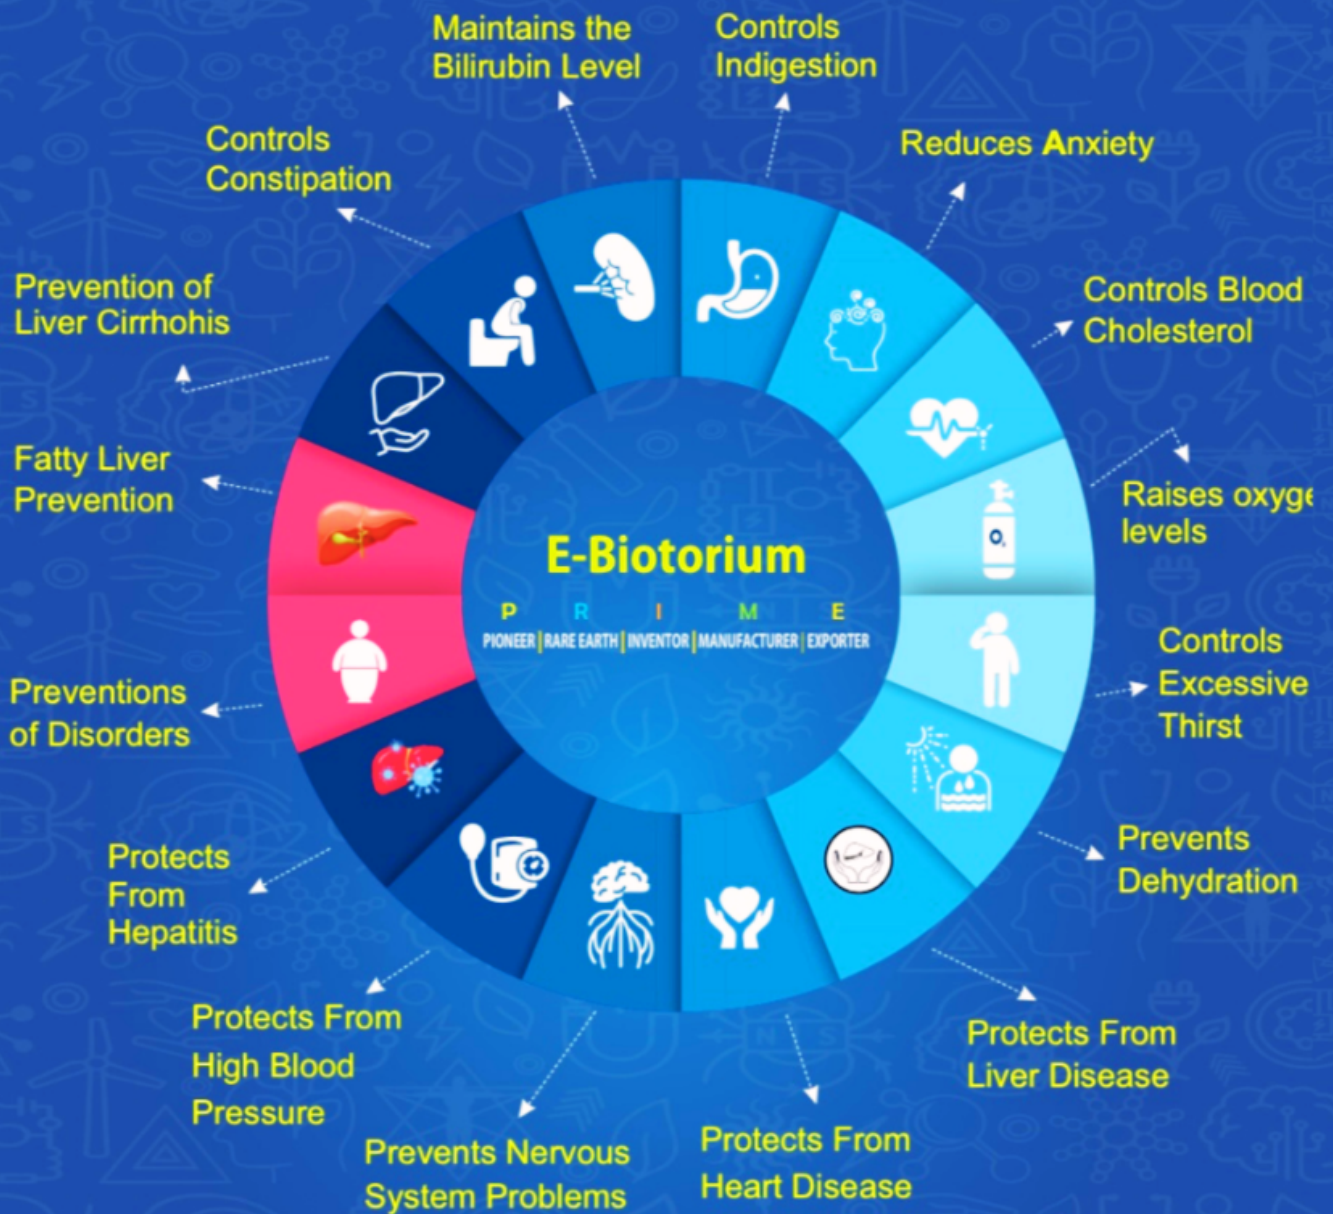

Given the importance of sleep for immune function, making it a priority to get a sufficient amount of uninterrupted sleep every night can work to strengthen your immune system.

Improving sleep often starts by focusing on your habits, routines, sleeping environment, and even whether you have the best mattress for your needs. Collectively, this is known as sleep hygiene, and even straightforward steps, such as having a consistent sleep schedule and avoiding using cell phones and tablets in bed, can make it easier to get a good night's sleep.

People with chronic or severe sleeping problems or issues with recurring illnesses should talk with a doctor. A doctor can work to identify an underlying cause and the best measures to address it.

# REFINE LIFE

## YOUR SOLUTION TO BETTER SLEEP AND WELL-BEING!

Are you struggling with sleeping problems or insomnia? Your mattress could be the culprit behind your restless nights. Say goodbye to discomfort and disrupted sleep caused by sagging mattresses – Introducing the Refine Life Magnetic Mattress, designed to elevate your sleeping experience and unlock the potential for more pleasant dreams.

Crafted with specially designed human health-related biomedical-grade magnets, made from pure natural rare earth permanent highly polarized materials, our Magnetic Mattress is hailed as the "king of bio magnets" for human health. Unlike magnets intended for industrial or electronic purposes, these magnets are 100% safe, natural, non-toxic, and eco-friendly, ensuring no side effects.

The Refine Life Magnetic Mattress offers remarkable benefits, working effectively from top to bottom to purify your total blood, alleviate body pain, and even help prevent hereditary genetic family history diseases. If you suffer from cholesterol, high blood pressure, or diabetes, this mattress may bring relief and reduce the tendency for multiple blood vessel blockages.

**Experience the soothing relief from back pain, knee pain, headaches, and migraines through the mattress's pain-relief properties. Moreover, it aids in alleviating sleeping problems, promotes faster tissue and bone healing, and enhances blood circulation and capillary circulation.**

**In summary, the Refine Life Magnetic Mattress promises numerous benefits, including improved sleep quality, pain relief, and potential enhancements to your overall health and well-being.**
